Career Profile

Client/Company	TECHSAGE/EUROPEAN IT (Freelance)
Project	Job Portal, NLP Testing Automation
Project Duration	Aug 2021 -Till Date
Domain	Web Development / Mobile Application Development
Role	Senior Software Developer
Location	Heistraat 247 5161GE, THE NETHERLANDS

Project 3: ICT Job Openings

Finding the right job made easy with ictjobopenings.nl. Register Now and Apply to the best jobs! Get Headhunted By Top Recruiters and Find the Right Job On ictjobopenings.nl.

Team Size: 3

Web Application: <https://ictjobopenings.nl/>

Responsibilities/Contribution:

- Built job listing and application flow using NextJS and Firestore.
- Deployed on Vercel for scalability.

Project 4: DeQRGids

QR-based product lookup app that fetches details based on scanned codes. DeQRGids is a platform that allows users to scan QR codes and get information about the product or service.

Team Size: 2

Web Application: <https://www.deqrgids.nl/>

Responsibilities/Contribution:

- Created mobile scanning interface.
- Linked MySQL and NodeJS backend for real-time queries.

Project 5: Kaipsool Plus

A pharma app to simplify medicine ordering, manage offline purchases, track deliveries, and generate reports, improving coordination between chemists and wholesalers.

Team Size: 8

Mobile Application: <https://play.google.com/store/apps/details?id=com.kaipsoolplus>

Responsibilities/Contribution:

- Built features to streamline order placement and delivery tracking.
- Developed reports for purchase and sale history.
- Managed MySQL and NodeJS backend for real-time data flow.

Project 6: Laxmi-M

Laxmi-M stands at the forefront of digital assets and a decentralized financial payment network, poised to bestow users with enhanced financial independence and command. Our overarching objective is to redefine the landscape of financial transactions and the availability of financial services, harnessing the potential of decentralized technology. In addition, Laxmi-M extends its hand in the form of exclusive discounts and cost-effective opportunities on handpicked e-commerce platforms, making online shopping a more seamless and economical experience for those opting to transact with digital assets.

Team Size: 6

Mobile Application: <https://play.google.com/store/apps/details?id=com.maalaxmi>

Responsibilities/Contribution:

- Developed smart contract-based modules for secure transactions.
- Integrated blockchain features for transparent digital finance.
- Built mobile frontend using React Native.

Project 7: Cityfurnish – Rent Furniture & Appliances

A subscription-based app for renting furniture and appliances across multiple Indian cities.

Team Size: 4

Responsibilities/Contribution:

- Developed and maintained features for rental subscriptions.
- Uploaded builds to Play Store and App Store.
- Integrated Firebase and MySQL for backend services.

Project 8: BPSC Master

An educational platform for learning BPSC essays and answers with animated visuals, audio, and video support.

Team Size: 2

Web Application: <https://bpscmaster.com/>

Responsibilities/Contribution:

- Built React + Vite frontend with Firebase backend.
- Integrated animated learning modules with narration.

Project 8: IOT API Lab

A test automation platform that generates test cases and scripts from uploaded NFR documents.

Team Size: 3

Web Application: <https://iotapilab.web.app/login/>

Responsibilities/Contribution:

- Developed NextJS frontend and Java-based backend services.
- Integrated predictive test generation module.

Career Profile

Client/Company	Cityfurnish Pvt. Ltd
Project	Rental Home Appliance Subscription
Project Duration	March 2021 -July 2022
Domain	Mobile Application Development
Role	Senior Software Developer
Location	Pune

Project 9: Cityfurnish Pvt. Ltd.

Rent Furniture and Appliances on Easy Monthly Rental Plan. Cityfurnish Provide Renting Services in Bangalore, Mumbai, Pune, Delhi, Gurgaon etc.

Team Size: 6

Web Application: https://play.google.com/store/apps/details?id=com.cityfurnish&hl=en_IN
